

## SECOND OFFER TURNED DOWN

Steel Strikers Will Not  
Accept Schwab's Lat-  
est Proposition.

## KEEP UP THE FIGHT

Trust Drops All Settlement  
Talk and Will Start Up  
Mills Tonight.

## NEWS IS CONFLICTING

New York, September 6.—President  
Samuel Gompers admitted late after-  
noon that his efforts to settle the  
strike had failed.

Pittsburg, Pa., September 6.—It  
was announced at noon that the steel  
trust's second proposition was turned  
down by the Amalgamated and that  
the trust announces that no further  
negotiations will be made and severs  
all dealings with the Amalgamated  
association.  
The trust will try and start up the  
mills at once.  
This statement is not officially an-  
nounced but is practically borne out  
by the dispatches from New York,  
which say that the civic federation  
peace committee called on Schwab  
this morning and was informed by  
him that he had issued orders for the  
resumption of all the mills to-  
night.

Hope for a Settlement  
Pittsburg, September 6.—The hope  
that the steel strike may at last be  
settled is warranted by a hurried as-  
sembly of the Amalgamated Execu-  
tive board this morning to consider  
the more recent peace proposition  
submitted by Schwab. The Mem-  
bers of the Board immediately went  
into secret session, some of them  
expressed the belief that peace would  
be reached as a result of today's  
conference. They are more cheer-  
ful in spirit and unanimous in the  
expression that any honorable terms  
of settlement will be accepted. It is  
believed the new plan carries con-  
cessions more favorable to the work-  
ers than those at first submitted.

Demer Mills Running  
McKeesport, Pa., September 6.—  
A number of new men were brought  
into the Demer Tin Plate Mills this  
morning and six mills are in opera-  
tion there today.

Settlement is in Sight  
Pittsburg, Pa., September 6.—The  
prevailing opinion in Pittsburg today  
is that the steel strike is practically  
settled, but nothing positive can be  
learned from either side to the cen-  
trover.

The day was spent by the Amal-  
gamated advisory board in secret con-  
ference. Those inside headquarters  
refused to say a word.

President Shaffer was not with his  
colleagues during the session and his  
whereabouts are unknown. Secre-  
tary Williams also disappeared.

It is said that President Schwab's  
offer was under discussion and that  
the Advisory board, while it did not  
refuse to accept, probably will. Presi-  
dent Schwab extended the time for  
acceptance until tomorrow, and the  
Advisory board will again try to reach  
some settlement, or submit a counter  
offer.

Trustee Talks of Settlement  
The only approach to a statement  
of the condition of affairs was made  
by Trustee John Pierce, who said it  
was impossible to accept the proposi-  
tion made by the United States Steel  
corporation, as by doing so some of  
the members of the Amalgamated as-  
sociation would suffer.

"It would be unjust to our mem-  
bers," said Mr. Pierce, "to accept  
such terms. We have made no  
counter proposition, and still insist  
on the terms made, and are willing  
to arbitrate the differences. The  
committee that visited President  
Schwab had no authority from the  
Amalgamated association to settle  
the dispute. The members were act-  
ing on their own responsibility."

## METHODISTS REFUSE EPISCOPAL LETTER

Ecumenical Council Ignores the Mes-  
sage of the Archbishop of Can-  
terbury, on Technical Grounds

London, September 6.—The ec-  
umenical Methodist conference today  
unanimously declined to hear the  
secretary read the message of the  
archbishop of Canterbury, in which  
he expressed a hope that some day  
the Methodists would be united with  
the Episcopalians, and on similar  
impert the message of the bishop of  
London, on the ground that they had  
been addressed to the editor of a re-  
ligious newspaper and not to the  
conference.

Discussing the present position of  
Methodism, Rev. T. E. Duckles of  
King William's Town, Cape Colony,  
went into the relations between the  
South African natives and the Euro-  
peans. He said he believed the war  
would purify the administration of  
the natives.

Bishop Hartzell, missionary bishop  
of the Methodist Episcopal church in  
Africa, said the present time was the  
beginning of another empire of Anglo-  
Saxon civilization. The war was  
merely an incident.

Dr. Leonard of New York thanked  
God for what Great Britain was doing  
in South Africa and expressed the  
hope that the war would soon end with  
the Union Jack floating.

## S. D. BURCHARD IS DEAD IN TEXAS

He Was at One Time a Prominent Cit-  
izen of Wisconsin, and Had  
Served in Congress.

Madison, Wis., September 6.—Sam-  
uel D. Burchard, who was a member  
of congress from the Fifth district  
in 1874, died in Texas on Sunday. Bur-  
chard was prominently identified  
with affairs in Wisconsin before fail-  
ing health necessitated his removal  
to a warmer climate. He was born  
in Leyden, N. Y., July 17, 1836, and  
when 9 years of age moved with his  
father to Wisconsin. He became in-  
terested in a woolen goods manufac-  
tury at Beaver Dam and was a mem-  
ber of the firm of McFarbridge, Bur-  
chard & Co. He served as first lieuten-  
ant in the Missouri state militia  
and was appointed captain in the  
quartermaster's department, retiring  
from the service in 1895 with the  
rank of major. He was twice elected  
state senator from the Dodge  
county district.

## BOHRMICH WANTS TO BE GOVERNOR

Does Not Deny the Report—Said To  
Be Fixing Up His Cam-  
paign Fences.

Milwaukee, September 6.—Some  
weeks ago the Oconto Enterprise  
made the announcement that there  
would be good politics as well as jus-  
tice in the democratic party again  
nominating Louis G. Bohmrich of this  
city for governor. Many of the dem-  
ocratic papers commented favorably  
on the proposition, but there was no  
evidence that it was a part of a plan  
pretty well organized to which Mr.  
Bohmrich was a party. That Mr.  
Badour, editor of the Enterprise, was  
in a position to speak with knowledge  
existing between the two believe, for  
during the campaign ending in Bohm-  
rich's defeat the Oconto man was  
one of his close and confidential ad-  
visers.

While in Milwaukee recently, Mr.  
Badour freely expressed himself as  
favoring the renomination of Mr.  
Bohmrich and sought to explain his  
candidate's attitude on the money  
question in as favorable a way as  
possible without saying in a direct  
way that he was opposed to the Bryan  
free silver idea.  
Yesterday Mr. Bohmrich was in  
Kenosha and it is reported that he  
was actively engaged in looking  
after his political fences, and arrang-  
ing for his gubernatorial campaign. While  
there he refused to state positively  
that he would be a candidate for the  
nomination, nor did he make a posi-  
tive denial that he would not be. He  
said that he would make an announce-  
ment in the near future which would  
be a satisfactory answer to his  
friends who are urging his nomina-  
tion.

## MARGARET POTTER ANSWERED, YES

The Famous Chicago Girl Author  
Will Be Married to John Black  
Next January.

Chicago, Sept. 6.—Miss Margaret  
Horton Potter sat in the music room  
of the Potter mansion on the Lake  
Shore drive yesterday afternoon  
and played a Schumann reverie.  
A few hours earlier her parents,  
Mr. and Mrs. O. W. Potter, had an-  
nounced the young author's engage-  
ment to John Black of Chicago, son  
of General John C. Black.

Miss Potter had dropped her pen  
and was taking a holiday. Her new  
novel, "Cleopatra," on which she  
has been working since her recent  
trip abroad, was shelved for the hour  
and the writer's thoughts must have  
been on the reverie she was playing.  
Schumann had made a hit. He—  
referring to Schumann—was recall-  
ing the early days in June, when Miss  
Potter met Mr. Black at the Win-  
ston-Lawrence wedding. She found  
something literature had not been  
able to supply, and now they are to  
be married.

In January the ceremony will take  
place and in Chicago the Black junc-  
tion will live. After the Winston-  
Lawrence wedding Miss Potter went  
to Lake Geneva; so did Mr. Black.  
They were members of the same  
house parties, sailed in the same  
boats, danced to the same music. He  
would read while she wrote; thus  
love and her career tramped on to-  
gether.

Miss Potter turned from her reverie  
yesterday and said: "Yes, we are  
to be married. We did not in-  
tend to announce it so soon. I won-  
der where the rumor sprang from."  
She wore a summer gown of light  
blue stuff, and as she arose from the  
piano one was impressed by the  
height and seeming physical strength  
of the young woman. Her face, al-  
ways pale, did not flush as tradition  
says cheeks do at such a time. Her  
dark eyes might have been a little  
darker, but that was all that be-  
trayed the feeling said to exist in the  
author's heart. She was not too  
preoccupied to be pleasant; neither  
did she look about for a soft light in  
which to pose. She has no frills in  
conversation, and knows how to say  
yes and no in a direct way. That  
she had said yes to Mr. Black—  
readily asserted, and then she added  
the wedding and the new book might  
be announced together.

Supt. T. A. Lawson of the North-  
western was in the city yesterday.

## LOSS WILL REACH ABOUT \$60,000; JEFFERSON HAS NARROW ESCAPE

District Burned Over in Yesterday's Fire Embraces  
About Twelve Acres—Sparks from a Railroad  
Engine Believed to Be Cause—The Losses.

Jefferson, Wis., September 6.—The  
comparatively new brick factory  
burned over in this city yesterday, burned over  
a district containing about twelve  
acres of ground. The buildings  
burned and the losses resulting are  
as follows:

Some of the Losses  
Wisconsin Manufacturing company,  
factory, paint shop, office and engine  
room destroyed, loss, \$50,000; St.  
Mary's Episcopal church, brick build-  
ing, total loss, \$6,000; O. J. Kersch-  
steiner's residence, loss, \$500; Wil-  
liam Rochstroh, barn and damaged  
furniture, loss, \$500; Gettleb Bros.,  
barn and sheds, loss, \$500; Frank  
Weaver, damage to dwelling, \$100;  
Roesseler, damage to dwelling, loss  
\$200; Charles Zahler, damage to  
dwelling, \$150; F. S. Reinel, damage  
to dwelling, loss \$200; town hall,  
damage to roof, loss \$100; Wisconsin  
Upholstering company, damage by  
fire, loss, \$100; damage to furniture,  
thrown out of buildings in panic, \$2-  
000.

The origin of the fire is not known  
although Superintendent Lewis M.  
Smith of the chair manufacturing  
where it was first found, believes  
that sparks from a passing train at  
noon flew into the open windows of

## IMPERIAL EDICT WILL BE SIGNED

Chinese Used the Protocol to Induce  
the Kaiser to Waive the Cere-  
mony of Kowtow.

Peking, September 6.—Li Hung-  
Chang today notified the foreign  
ministers that the imperial edicts pro-  
viding for the signing of the peace  
protocol had arrived. This announce-  
ment, made after the settlement of  
the difficulties which Prince Chun ex-  
perienced before going to Berlin, con-  
firms the impression here that the  
Chinese used the protocol to induce  
Emperor William to waive the kow-  
tow ceremony.

## BOERS SUSTAIN A SEVERE DEFEAT

Middeburg, Cape Colony, Septem-  
ber 6.—Col. Schobell's column has  
captured the whole of Lotter's com-  
mand near Petersburg. The Boers  
lost twelve killed, forty-six wounded  
and one hundred and three taken  
prisoners. Two hundred horses were  
also captured.

London, September 6.—General  
Kitchener reporting Schobell's success  
at Petersburg says that Commanders  
Lotter and Breedt, two field cornets  
and one lieutenant, are among the cap-  
tured. The British casualties are  
ten killed, eight wounded. He also  
reports that three hundred Boers  
crossed to the south side of the  
Orange river on Thursday and that  
the British are in pursuit.

Dr. Judd and wife who have been  
at Buffalo, Toronto, Niagara Falls,  
and who also visited Mrs. S. S. Judd,  
at Franklinville, N. Y., returned some  
evening after a ten days' pleas-  
ure trip.

Justice Murphy is Dead  
London, September 6.—Justice  
Murphy of the Irish supreme court  
is dead. He was crown prosecutor  
at the famous Phoenix Park murder  
trials.

## ATTACKED BY AN INSANE MAN AT BUFFALO FAIR

Two Shots Fired One of Which  
Takes Effect in the Shoulder  
and One in the Groin.

## BOTH OF THE SHOTS ARE SERIOUS

Buffalo, N. Y., Sept. 6.—President McKinley was shot  
twice at the Pan-American grounds this afternoon by an in-  
sane man. One bullet took effect in his shoulder and the  
other in the breast. He has been removed to service build-  
ing hospital at the grounds.

It is now said that one bullet struck the president in  
the chest, the second in the groin. Both wounds are seri-  
ous.

Milwaukee, Wis., Sept. 6, 4 p. m.—The fellow who  
shot him was shaking hands with him at the time. He shot  
with his left hand.

The president was holding a reception in the Temple of  
Music.

## ODD FELLOWS WILL RECEPTION FOR HAVE BIG PARADE GEN. MACARTHUR

Official Program for Gathering at In-  
dianapolis Beginning on Sep. 16,  
is Made Public.

Indianapolis, Ind., Sept. 6.—The of-  
ficial announcement of the formation  
of the great parade of Odd Fellows  
in this city on Tuesday, Sept. 17, dur-  
ing the grand lodge meeting, Sept.  
16-21, inclusive, has just been made  
by W. H. Leedy, Grand Secretary  
for the order in Indiana.  
The marching column will include  
25,000 Odd Fellows, the greater part  
of whom will be in uniform. They  
will appear in delegations from ev-  
ery state in the union, and as dele-  
gates from Canada, Nova Scotia and  
Mexico. The parade will be made  
up of ten large divisions, each headed  
by a grand marshal with a staff of  
aids.

Grand Sire Cable, who is also com-  
mander-in-chief of the Patriarchal  
Militant, the military branch of the  
order, will lead the line until it  
reaches Monument Place on its way  
to the point where it will disband,  
when he, with the members of the  
Sovereign Grand Lodge, in carriages,  
will review the marching column.

Judge A. O. March of Winchester  
will be chief marshal of the whole  
line, and will have on his staff promi-  
nent citizens of the state who are  
members of the Odd-Fellows' frater-  
nity. The line will be led by troops  
of mounted police and hussars and  
by an escort squadron. Then the  
grand sire, with his staff, made up  
of well known members of the frater-  
nity from several states, will appear.

Each Indiana division will have a  
chief marshal with a staff of aids.  
It is expected that the Indiana divi-  
sion alone will contain more than 10,  
000 members of the fraternity.  
More than 500 horses have already  
been engaged for the parade. They  
will be used by the marshalls and  
their aids. There are to be about  
200 carriages in line, in which the  
official members of the sovereign  
grand lodge will ride.

The committee on hotels has had  
to make extra accommodations, ow-  
ing to the large number of applica-  
tions for quarters, but John F. Wal-  
lick, chairman of the hotels commit-  
tee, says that all who come will be  
accommodated.

## GREAT FIRES ARE RAGING IN RUSSIA

St. Petersburg, Sept. 6.—It is stat-  
ed that a polar expedition, to be fi-  
nanced by a titled personage, is being  
prepared here. It will be absent  
four years.

Before the rains a few days ago St.  
Petersburg was enveloped in smoke  
from burning peat beds, and the  
newspapers still report fires in all  
parts of Russia. Villages and towns,  
forests and peat beds, lumber yards  
and factories have been burning for  
six weeks. The peasants, who are  
the principal sufferers, are utterly  
incapable of resisting the flames;  
that is, intellectually and morally.  
Incapable.

They continue building their villag-  
es in the same fashion, with their  
wooden thatched huts close together,  
and it is usually only when a forest  
or peat fire begins to threaten a  
village that any effort is made to ex-  
tinguish it. The fire ravages have  
been unusually large this year.

Safety in Railway Traveling  
Railway traveling in Great Britain  
is the safest in the world. In Ameri-  
ca, one passenger in every 2,400,000  
is killed; in France, one in every  
19,600,000; and in Great Britain, only  
one in every 23,000,000.

## DID NOT FILE HIS EXPENSE ACCOUNT

Isaac Stephenson, the Half-Breed  
Leader, is Subject to a Fine of  
\$500, Under State Laws.

Milwaukee, Wis., September 6.—  
One of the results of the struggle  
within the republican party is a re-  
vival of the story that Isaac Stephe-  
nson will be called upon to pay a fine  
for not filing a statement of his ex-  
penses in the senatorial campaign of  
1899.

Under the corrupt practices act  
every candidate is required to file  
a statement of all the expenses in-  
curred by him in seeking office within  
a certain time. In case of a failure  
to do this he is liable of a fine of  
not exceeding \$500.

After the fight that resulted in  
the election of Senator Quarles all  
of the candidates filed with the se-  
cretary of state the required state-  
ment, with the exception of Mr. Stephe-  
nson. When asked for an explana-  
tion he said that he had not heard  
of the law until a few days before the  
time had expired, and he therefore  
thought that it would be better to  
stand a fine than to try and get a  
statement ready in time. Nothing  
further was done about the matter.  
Lately some newspapers have re-  
ferred to the incident as an argu-  
ment against Mr. Stephenson's stand-  
ing in the administration camp, and  
it is said that action will be taken  
which will make it necessary for him  
to pay the fine assessed under the  
law for his forgetfulness of a few  
years ago. In order to do this some  
one will have to make complaint, and  
there is a good deal of guessing as  
to who the complainant will be.

## THE NEWS FROM COUNTY TOWNS

### MILTON

**THE GAZETTE AGENCY.**  
W. W. CLARKE, Manager.  
Milton, Sept. 6.—The fall term of Milton college began Wednesday with a larger attendance of students than for many years past. There are many new faces and a goodly number of those who have been registered right along for several terms. The college buildings have been renovated, repaired and class room facilities increased. Students are already registered from Japan, New Jersey, West Virginia, South Dakota, Minnesota, Colorado, Nebraska, Illinois, North Dakota, Iowa, Kansas and Wisconsin.

### LEYDEN

Leyden, Sept. 5.—A light east wind has been blowing for the past two days, the sun being hot yesterday and today, with cool nights and a dew falling each night.

Tobacco is being put into shed on most of the farms and a fairly good growth considering light soil and no rain. The tobacco will soon be where neither frost nor hail can destroy it. An estimate of an average yearly acreage places this year's at one-fifteenth of an average year's acreage.

The meadows are all dried up and farmers are feeding stock corn or hay or anything that can be had.

Some tobacco buyers, it is said, have bid as high as 15 cents for tobacco in the field.

The potato crop along the Madison road is a failure. All will do well to get their seed back.

This season, in vicinity is checked off and rated as the dryest in a hundred thousand years.

Mr. O. U. Donkle is absent from business for the present, Mr. E. D. Shaw doing the work.

Night Operator Conrad Hansen and Messrs. Little and Brown boarded the morning train today. Perhaps Evansville fair is the attraction.

## JANESVILLE WOMAN WANTS TO MARRY

Widow Writes, to Answer an Advertisement of a Madison Man—Some Interesting Letters.

Fully 500 female Barkises answered the matrimonial advertisement of William Henry Hutchinson Hamilton Wilson, 2037 Atwood avenue, Madison, says the Democrat. The women who would offer themselves to crown with success the efforts of this man-in-search-of-a-wife write from Milwaukee, Chicago, Janesville, Stoughton, Waukesha, Oshkosh and Stevens Point, but few are located in Madison or its immediate vicinity.

Some four score photographs accompanied the letters; some of them indicate the want-a-man to be rather good looking. Almost every letter contains a catalogue of the writer's virtues and if these photographs and catalogues are bona fide and accurate Mr. Wilson has at his command a colony of women, such, if the old Romans possessed it, as would have made the rape of the Sabines impossible.

The strangest part of it all is, notwithstanding the superabundance of willing ones, Mr. Wilson is still single and says he fears he will have to advertise again. Though there are so many women after his own heart, Mr. Wilson has not found his ideal. Some have come close to the mark however.

A certain girl in Waukesha upon whom he called would do were it not for the fact that she is but four feet, five inches tall and weighs 142 pounds. Mr. Wilson says she is all right in her way, but he fears she may not prove able to do her own work.

Another subject was found to tip the scales at 105 pounds and was dropped from the list of possibilities for that season. One candidate missed her chance because she had two pianos and two bicycles, although she offered one of each to him.

It will be remembered that the wife-seeking advertisement called for a woman not older than 32 years and requirements—amiable disposition, plainness in habits of dress, the ability to cook well, neatness about the house and a firm allegiance to ancestral duties. Among the replies received are many attempts to convince Mr. Wilson of errors in his definition of a perfect woman.

Particularly interesting is the communication of a Janesville widow who wrote thirteen pages of foolscap telling Mr. Wilson of the defects of young women. "You will make a great mistake," she writes, "if you marry a woman over 30. They are

as a rule flighty and cannot be depended upon to take care of the house. Moreover, they are dreadful flirt, especially when married to a middle aged man as your advertisement says you are." After thoroughly going over the defects in immature women the widow closes by saying she is 52 years old, has two daughters who will be married the latter part of September and leave her all alone in the world and she is sure she can fill the void in Mr. Wilson's life.

This was the longest letter received. One of the shortest of the 500 came a few days ago from a girl of 22 years in Milwaukee, who wrote: "I read your ad., a little late, to be sure, but it may be better late than never. If not too late, I'm yours. Another writes: "It's a bargain. I'll suit you to a T. Come and get me."

Mr. Wilson turns some of the letters he receives but files most of them in his bureau drawer where he has a collection of epistles wonderful for the variety of brands of human nature that they disclose. Many are answered and the recipient is often kept up until the wee sma' hours of the morning attending to his voluminous correspondence. He has made several trips out of town to investigate cases which seemed to possess the desired qualities for his wife, but has not been able to make a selection as yet.

### SCENES FROM LOVERS' LANE

One of the best effects in stage realism are the apple trees in Wm. A. Brady's production of "Lovers' Lane," by Clyde Fitch, which will be seen at the opera house on the 10th day of September. The trees in the third and fourth acts are marvels of workmanship; in the third supposed to represent the fall of the year, the trees heavily laden with fruit, and the fourth act, springtime, the trees in full bloom, with their blossoms which seem to permeate the atmosphere with perfume, at a great cost and the best skilled workman. Mr. Brady has triumphed and has succeeded in getting away from the time worn painted stage trees of old.

Thomas Jefferson, "Rip Van Winkle," and his pirate crew are coming to the Myers Grand, Thursday Oct. 10. Who is Thomas Jefferson will be one of the many questions to be propounded. He is a worthy son of Joseph Jefferson, and one that a father may well feel proud of, for it is said he will keep the name of Jefferson before the public for years to come as his success in Rip has been so satisfactory both financially and artistically that he will continue acting until the public become tired of Rip which from present indications will live on forever and ever. Little need be said of his presentation of that drunken vagabond as R. P. for the name of Jefferson is a sufficient guarantee that it will be presented in an able and painstaking manner. The company that will be seen during Mr. Jefferson's engagement has been carefully selected from the members of the profession each one ably fitted for their respective characters.

A sumptuous revival of Shakespeare's immortal play, "Hamlet," will be the principal feature of Robert B. Mantell's tour, under management of M. W. Hanley, this season, opening on Sept. 2nd. Passed to First and Second Reading by the Council Last Evening—Some Other Routine Work.

President H. S. Gilkey presided at the adjourned meeting of the common council last evening. Aldermans Fife, Rice, Hutchinson, Hemmings and Keenan answered to roll call. Ald. McLean came in later in the session. The minutes of the last regular meeting were read and approved.

The city treasurer's report for the month of August was presented and referred to the finance committee and later reported correct and placed on file.

The municipal court report for August was referred to the judiciary committee who later reported it correct and placed on file.

The bond of Joseph Croak was reported in due form and the securities good. The application of Thos. M. Dermody, for a transfer of his saloon license to Croak was granted.

The report of the street commissioner and the assistant street commissioner was read and placed on file. The cost of the sidewalks built by them was ordered charged to the property.

The report of the street assessment committee of the work done in completing the Martin contract on Court street was received and the amounts due for the work charged up to the general fund. The usual batch of bills was presented and the city clerk was instructed to draw orders on the treasurer for them.

The city treasurer was instructed to borrow \$1,000 and place it to the credit of the general fund. The president of the council was instructed to sign the annual tax warrant and it be delivered to the city treasurer for collection.

The application of P. L. Spooner for a franchise to construct a street railway in the city of Janesville was given its first and second reading and referred to the highway committee.

An ordinance amending the city charter to allow the council to pass an ordinance regulating the sprinkling of the streets was introduced and given its first and second reading.

The motion of Alderman Fife that the rules be suspended and the ordinance given its third reading and put upon its passage brought out a remonstrance from Alderman Hutchinson. He did not understand the ordinance and asked to have it referred. Under these conditions Alderman Fife withdrew his motion.

President Gilkey explained that this ordinance simply amended the charter so that the council could pass an ordinance regulating the street sprinkling.

City Attorney Burpee explained that this ordinance did not govern the sprinkling of the streets but put matters in such shape that the council could pass an ordinance. As the matter stood now they had no authority to pass a sprinkling ordinance.

President Gilkey addressed the council and said it was a shame the way the streets were being ruined by the street sprinklers and people with a hose. If he could not get an ordinance regulating this matter passed by the council he would have the offenders arrested and brought before the municipal court and see if they are within the law.

The matter was finally settled to the satisfaction of all and the ordinance was given its third reading and passed.

An order for a brick cross walk at the intersection of McKee boulevard and Eastern avenue was introduced and referred to the highway committee.

President Gilkey appointed the following people as inspectors and clerk of election in the several wards.

**FIRST PRECINCT, FIRST WARD.**  
Inspectors—W. H. Ashcraft, J. P. Baker, C. Church.

**SECOND PRECINCT, FIRST WARD.**

## DISTRIBUTION OF THE PRAIRIE HEN

One of the most remarkable things about the prairie hen is that American civilization has not exterminated them. When, nearly three centuries ago, Long Island was explored, and its settlement begun, these Dutch and English pioneers and settlers found many curious birds that were entirely new to them. Among others was one that, for want of a better name was designated heath hen. It was the cognomen of the prairie chicken of the far west, but was a trifle larger bird than is today known on the western prairies.

How the heath hen ever withstood the advance of civilization can scarcely be understood, remembering the American tendency to destroy everything living that can be eaten, but somehow this purely American bird has survived, and today there are still a few of the real heath hens left in the interior of Long Island, where they are carefully preserved and assisted, as the French say, by importation of new blood from the farther western prairies.

The distribution of the prairie hen or chicken is very wide. In truth it is the only one of our game birds that has been found from the Atlantic to the Pacific and as far south as New Mexico. In the Texas prairies they are still abundant, while in the fine old prairie country of southwest Louisiana there are still large numbers remaining, and oddly enough are increasing very considerably, and the prairie country of the western states furnish them in abundance.

That the prairie chicken varies in size and physical characteristics with its habitat is certain. In the southern states, the conditions being more favorable, they find their greatest development. In their mating season male birds fight more fiercely than the male prairie chickens. They have morning meeting places at these periods, generally a sort of mound-like formation from fifty to a hundred feet high. Here in the warm spring mornings the hens and cocks gather in large numbers, sometimes as many as a hundred in a flock. When perhaps fifty hens of all ages have arrived and are demurely sitting about, the cocks gathered in a semi-circle, they begin to choose their mates, which in many cases brings forth a hard battle, where the combatants frequently are killed or partially disabled.

These meeting places, once selected, are used year after year. Whether the same birds return that were there last season is not known. It would seem probable that some of them do come back.

It requires a good deal of patience and a pretty full knowledge of the territory to observe the habits and manners of these birds when they are at home. One has got to get up early and crawl about in high grass and reedy bottoms; but in the end the true sportsman gains his reward, for he sees what the closest naturalist seldom sees—the birds acting as they do only under the eyes of their Creator.

The prairie chicken is the wonder and despair of the wild fowl fencer who desires to civilize all sorts of birds and beasts, as it cannot be kept in captivity any length of time.

## J. C. HOGAN WEDS AT SIOUX FALLS, S. D.

Popular Young Man Formerly of This City, Takes Miss Catherine Hennessey as Wife.

James C. Hogan of Sioux Falls, S. D., formerly a popular young man of this city was married at Sioux Falls, Wednesday morning to Miss Catherine Hennessey. The Argus-Leader of Sioux Falls has the following account of the ceremony:

"The expected has happened. Several days ago the Argus-Leader announced that James C. Hogan, one of the popular young men of the city, would shortly be united in marriage to a Sioux Falls young lady. The ceremony took place at the St. Michael pro-cathedral at 7:30 o'clock this morning when Mr. Hogan was united in marriage to Miss Catherine Grace Hennessey. The ceremony was performed by Father Nolan at the close of the morning mass and was witnessed by a number of the immediate friends of the contracting parties. Mr. and Mrs. Hogan departed for an extended eastern trip which will take in the Pan-American exposition and several other eastern points. The happy couple were the recipients of many handsome and useful presents before their departure.

"Mr. Hogan has been a resident of Sioux Falls for about three years. He has made a large circle of friends during his stay here and is very popular with all with whom he has become acquainted. Mrs. Hogan has resided in Sioux Falls about the same length of time. She is the daughter of Terry Hennessey, who was deputy warden of the penitentiary under Warden Bowler. She is a charming young lady and is very popular among her associates.

"In about three weeks Mr. and Mrs. Hogan will return to Sioux Falls when they will at once go to house-keeping."

Mr. Hogan's numerous friends in this city will unite in extending congratulations.

## HUNTING OF NOBLE CANVASBACK AMBITION OF ALL DUCK HUNTERS

This Lordly Bird, Strong of Wing and Wary of Man  
Makes a Pleasurable Sport—Experience of  
an Expert Janesville Hunter.

How many duck hunters in this great country have ever experienced the pleasure of hunting the lordly canvasback, without looking back to their last hunt with feelings of pleasure and hoping that the day is not far distant when they may again try to bag a few of them.

Of all the ducks that fly the canvas back is the one that is the ambition of all duck hunters to kill. This noble bird, strong of wing and swift of flight, gives the hunter that is lucky enough to make a good bag, a day's sport that is never forgotten. At the lakes frequented by the canvas back extensive preparations are made each fall by the shooters to give them a warm reception. During the summer months before the flight commences everything is put in order for the fall campaign. Boats are taken out of the houses, overhauled and painted, decoys examined and those that are not in good shape are repainted and struts and anchors attached.

Everything is put in shape so that it is ready for use when the long expected time arrives and the canvasback is once more seen winging his steady flight up and down the lake or feeding in great flocks in the parts of the lake where the wild celery beds cover the bottom.

Long before the canvas comes into the lake every bunch of rushes that affords cover has a blind built in it. This will be the home of the hunter during the coming days. The canvas back is not a marsh bird and all the shooting is done from blinds built in rushes that line the edge of the open water or in isolated bunches that dot the surface of the bays.

About the fifteenth of October the canvasback is reported in large numbers at their stopping place, on their long flight from the Arctic ocean to the Gulf of Mexico, and the hunter betakes himself to his favorite shooting place.

Boats are launched and filled with decoys and rowed or paddled out to the blinds. Soon a flock of from fifty to one hundred and fifty wooden ducks, that often deceive the hunter at a little distance away, are arranged to catch the eye of the wary canvas as he flies around looking for a good feeding place.

Imagine yourself on a cold October morning, that makes the fingers and ears tingle with cold, in a blind a quarter of a mile from land, with a fairly good breeze blowing, and, sea running that makes the boat rock and decoys dance, watching a distant line of black objects that are coming your way at a high rate of speed. You crouch down in your boat where you will not be seen by the birds and get your gun in a position for use at a moment's notice.

You watch the rapidly approaching line that has now grown into a bunch of canvas back and wonder if they will see the decoys and come in, or whether they will notice the blind and turn off, or pass along out of gun shot. When they are some distance away you give a call peculiar to the canvas back and unlike that

of any other duck. The call is low and clear and in an instant you notice they have seen the decoys and are coming in so as to give you a good shot.

As they come on you commence to figure whether they will bunch and give you a chance to kill several with each barrel or whether they are going to spread out so it will be but a chance to kill one with each barrel. While you are figuring on your chances the birds have struck the lower end of the decoys and are pulling up in front of the blinds like a squad of soldiers. As they come into range you are all ready to shoot and as you watch the bunch you see three or four of them pull out into a space that your pattern of a duck gun will cover.

As the gun cracks you see three of the leaders drop out of the bunch, two killed dead and one crippled; at your shot the flock scatters and you see an old drake swing off out of danger and catch him with the center of the charge from your left and double him up like a dish rag. You hastily put fresh shells into your gun and scan the water for the bird that was crippled.

Possibly he will be struggling around about ready to die, or he may be nowhere in sight, for a wounded canvasback can dive like a flash and come up for air anywhere from four to eight rods from where he struck the water and then show nothing but his head and bill. You see a small object show above the water some distance away and there is your cripple. Then begins a chase where the cunning of the duck is pitted against the skill of the hunter.

You get to where you last saw him go down and having noted the direction of his dive pick up your gun and make ready for a snap shot. Suddenly a small object appears above the surface a short distance ahead and you fire; you charge went a little high and you shot over the mark.

The chase begins again with renewed vigor and you repeat the operation and this time are more fortunate and have the pleasure of seeing the bird lying on its back in the water making the last few convulsive kicks. You pick up the duck and after admiring him throw him into the boat, return and pick up your other birds, get into the blind and prepare for another shot.

Thus it goes on during the day. Sometimes you make an almost impossible kill and at others you miss a pair of birds that are almost standing still over the decoys.

The hours have fled by, while you have been in the blind and almost too soon the waning light tells you that your day's pleasure is ended. Tired and sore you push out of the blind and make your way to the shore, but the satisfaction that comes to you when you take a bunch of the finest duck that flies out of your boat and lay them on the ground where you can admire them, more than pays you for the hardships you have undergone during the day for the purpose of killing them.

The Y. P. S. of Trinity church ushered in the dancing season of 1901 with one of their popular parties at Assembly hall last evening. A good sized party of dancers were in attendance and spent a delightful evening dancing to the sweet strains of Smith's orchestra.

The tackle used for raising heavy loads up into the Jackson block gave way this morning when a wheelbarrow loaded with a barrel of cement was being lifted into the building. The load was up above the third story when it broke loose. It came down with a crash. Fortunately none of the workmen were under it when the tackle broke or it might have resulted seriously for them.

### Y. M. C. A. AUXILIARY ANNUAL MEETING

Reports Showed a Total Membership of 95—Mrs. A. A. Jackman Elected President.

The annual meeting of the Woman's Auxiliary to the Y. M. C. A. was held on Tuesday in the parlors of the Y. M. C. A. building.

The secretary's report showed there had been ten meetings during the year with an average attendance. The report showed an average attendance of 95. Three new members have been added during the year and the society has lost one by death—Mrs. George Wise.

The ladies have been untiring in their work and have accomplished much in caring for and beautifying the interior of the building. They have expended \$289 in frescoing the walls of the auditorium and decorating and care of the dormitories. The officers elected for the ensuing year are: President, Mrs. A. A. Jackman; 1st vice president, Mrs. J. T. Henderson; 2nd vice president, Mrs. C. A. Hunt; secretary, Mrs. A. E. Wheeler; treasurer, Mrs. Henry Hanson.

### BELOIT WON THE BOWLING GAME

A match game of ten pins was booked last night at Hockett's alley between picked teams of five men from Beloit and Janesville. As usual the Janesville men were not up to their best form and were beaten every game. The individual scores of some of the Janesville players resembled those made by beginners rather than players who were to compete in a match game.

The members of the Beloit team were Dorkner, Frost, Van Wort, Oliver and Evans.

Janesville was represented by Gibson, Schmidley, Stoddard, Hockett and K. C.

The total scores in the three games were as follows: Beloit: 805, 791, 831; total 2,426. Janesville: 772, 738, 756; total 2,266. The Beloit average for the three games was 810 and Janesville's 755 1-3.

A return match will be played in the near future when the Janesville team gets practice and has five men that they can depend upon to get around and play when the match is called.

### Noble Did Attempt Suicide

The police of San Francisco have at last discovered that W. P. Noble did attempt to commit suicide at the Brooklyn hotel in San Francisco on August 24. Chief of Police Hogan today received a telegram from W. P. Sullivan, chief of police at San Francisco, stating that Noble was at McNeill hospital and that an explanatory letter was now on the way. Chief Hogan thinks that the San Francisco police must be slack in their methods about locating cases of this kind. A little diligence in the matter might have saved \$4 or \$5 spent in telegrams.

### ALL FIRE ALARM RECORDS BROKEN

An Epidemic of Fires in the City of Beloit—Some of Them of Incendiary Origin.

Beloit, September 6.—(Special)—All fire alarm records were broken in the last twenty-four hours—six alarms yesterday and one this morning. All except one occurred in the business portion of the city, but the loss in no case exceeds from \$50 to \$75. The most serious occurred at 7:30 o'clock last night in a two story frame building located in court of Allen's block in the heart of the business district. For a time it looked as if other buildings would be consumed, but by heroic work the flames were subdued.

This morning at 4:30 o'clock fire was discovered in the yards of the Keeler Lumber company and quick work was necessary to prevent it from spreading.

This fire and the one in the court of Allen's block are conceded to be of incendiary origin.

### The Milwaukee Exposition.

About the only recognizable features of past expositions that visitors will recognize in the coming big electrical and industrial show which starts next Saturday will be the "gift night," which, as in former years, will be the attraction on every Saturday night during the running of the exposition. As there will be but three weeks of the show this year instead of five, there will be but four distributions of gifts, namely: On Sept. 7th, 14th, 21st and 28th. Manager Trumpf already has a large assortment of valuable and useful articles which will be given away. The character of the gifts—it is said will be more expensive this year than heretofore.

### Piano for Concert

S. C. Burnham and Co. have donated the use of a high grade Schiller piano for use at the concert this evening. This instrument was sent here from the factory especially for use at this concert. This insures the soloists of a first class instrument for their accompaniments. Mrs. Sweeney's instrumental solos will also be played on this piano.

Fruit of all kinds was received this morning by Richter Bros.

### PACKED HOUSE AT GRAND TONIGHT

The Grand Concert Will fill the Theater—Program of Exclusively Local Talent Promises Much.

Indications point to a packed house at the Myers Grand tonight, on the occasion of the grand concert organized by the Mid-Winter Fair committee to wipe out the balance due on the canning factory bonus.

The program of entirely local talent printed yesterday promises in its fulfillment to be the best thing of the kind ever presented in this city. The names are a guarantee of a first-class and artistic performance. Messrs. Sweeney, Rexford, Learned and Day have no superiors in this section of the county and they will account for their musical and elocutionary talent with credit.

The mystery of the occasion will be the High Step Military band. It is understood to be intended as a sort of burlesque in which a dozen or more of the leading young business men of the town will participate. From hints and insinuations picked up here and there this part of the program promises to be a feature. There are still a few seats left but it is likely that standing room will be at a premium.

The members of the O. E. S. study class were the guests of Mesdames W. H. Merritt and C. A. Sanborn yesterday at the Idlewild grounds up the river. They were conveyed to the grounds about ten a. m., and spent the day in the cooling shade of the trees. A tempting dinner was served at noon. The party returned home at six o'clock last evening after a thoroughly enjoyable day.

### CONTEST TODAY ON BUCKLETON LINKS

Oconomowoc Golf Players Are Being Entertained by the Sinnissippi Club—A Team of Cra.ks.

The members of the Oconomowoc Country club arrived in the city this morning at 10:15 for their contest with the team from the Sinnissippi Golf club. They were met at the train by a delegation from the home club and taken to the grounds in a carryall, where they were given a chance to go over the course and become acquainted with the greens. Dinner was served to the visitors in the club house at noon by the ladies of the club under the supervision of Mrs. H. G. Carter.

The members of the Oconomowoc country club are not residents of that city but are from golf clubs from all over the country and spend their summers at Oconomowoc and have a country club for their own amusement.

The gentlemen composing the team are men of wealth and have had the advantage of playing over the best courses of the country. They have a professional at the grounds during the entire season and many of them have a national reputation as golf players.

Mr. "Gail" Thompson is a fine player and has been a leading figure in many large tournaments. W. V. Hoare, their professional, is a first-class player and has the record for long driving, won in open competition with the best players of the United States. He will play a match against the best ball of Chester Brewer and Colin C. MacLean.

Elmer Martin of Chicago is a member of the team, is a Beloit college graduate and is well known in this city.

At present the Sinnissippi Golf club is somewhat shy of players on account of several being unable to get away from work and others being out of the city. However, they will do their best to defeat the visitors. The line-up of the teams is as follows:

Oconomowoc—Fred S. Merrill, G. H. Simmers, Gail Thompson, C. Peck, E. B. Martin, W. L. Diston, W. L. Peck, F. J. Smith, F. J. Martin, W. W. Diston.

Mrs. H. M. Weaver and daughter, Mrs. G. W. Garlock are visiting relatives in Evansville.

## IN DANIEL WEBSTER'S MEMORY

Dartmouth College Arranging for a Unique Celebration.

Hanover, N. H., Sept. 6.—Dartmouth college will celebrate the 100th anniversary of the graduation of Daniel Webster from that institution on Sept. 25 and 26. Addresses will be delivered by ex-Gov. Frank S. Black of New York, Senator Hour, Chief Justice Fuller, Congressman McCall, Judge Alfred Russell of Detroit and others.

One thousand of the alumni will parade, dressed in revolutionary costumes. There will be singing by a chorus of 200 voices. Samuel Appleton, the only living grandson of Daniel Webster, will lay the corner stone of Webster hall, the new administration and alumni memorial building.

## UNDER TONS OF EARTH.

Three Men Killed and Three Injured by Landslide.

Cleveland, Sept. 6.—Three men were killed and three others seriously injured in a landslide at the new Lake Shore bridge over the boulevard entrance to Gordon Park. The dead are: Angelo Donneo, Nick Manico, Antonio Florimond. The injured: Domino Confolati, Nicola Credro, Francisco Florimond. Seven hundred tons of earth, loosened by the flood of Sunday, suddenly slid down from the bank, burying a force of laborers working on the bridge. The comrades of those who were buried immediately began the work of rescue, but it was nearly two and a half hours before the last body was dug out.

**Six Ministers Under Arrest.**  
Dunbar, Pa., Sept. 6.—Six ministers, members of the Pittsburg conference of the Methodist Protestant church, were arrested here charged with conspiracy. They are George C. Sheperd, Charles L. Swift, William Gladstone of East Liverpool, Ohio; J. H. Lucas of Hancock County, West Virginia; J. C. Carpenter of Eldersville, and George Shaffer of Bellevue. The history of the case dates back to September, 1899, when the Pittsburg conference met at Beaver Falls. It is alleged that at the conference held at Beaver Falls the defendants charged Mr. Robinson with being guilty of conduct unbecoming a minister of the gospel. The charge was not sustained.

**Fatal Crash of Street Cars.**  
Cleveland, Sept. 6.—Two suburban electric cars, going in opposite directions, collided at a point one-half mile east of Chagrin falls and ten miles west of Cleveland, and fourteen passengers and the crews of both cars were more or less hurt. A. H. Bradley, aged 70 years, of Cleveland, is thought to be fatally injured.

**Kills Girl and Shoots Himself.**  
St. Louis, Sept. 6.—George Kenelle, aged 22 years, shot and killed Bertha Richter, his 16-year-old sweetheart, and with the same revolver put a bullet into his own breast. He is at the city hospital, probably fatally wounded. The refusal of the girl to keep a promise to marry Kenelle is said to have caused the shooting.

**Gresham's Mother Hail at 98.**  
New Albany, Ind., Sept. 6.—Mrs. Sarah Rumley, mother of the late Walter Q. Gresham, former judge and secretary of state, attained her ninety-eighth year yesterday, and unaided she prepared an elaborate dinner for the fifty guests who assembled to commemorate the event.

**Prefers Death to School.**  
Atchison, Kan., Sept. 6.—Rather than go to school 15-year-old Arthur Jaquay, son of A. K. Jaquay, a boiler-maker in the railway shops here, committed suicide today. The boy rebelled at going to school and when his parents insisted he secured a revolver and shot himself.

Fred Boynton, of Freeport, called on Janesville friends yesterday.

## Pretty Hands,

Hands delicately moulded and daintily white are among the chief of woman's charms. When such hands are marred by eruptions, their very beauty draws attention to the repulsive disease. Humors which break out on the body begin in the blood. Soaps and salves may cover up a humor but they can't cure it. There is a cure for salt-rheum and other eruptive diseases, caused by a corrupt condition of the blood. Dr. Pierce's Golden Medical Discovery cures these diseases perfectly and permanently. It carries off the poisons which cause disease. It makes the blood pure and rich. It increases the quantity of the blood supply by increasing the action of the blood making glands. It makes the skin white and clear by making the blood pure.

"Golden Medical Discovery" contains no alcohol, whiskey or other intoxicant.

"I write to tell you the benefit I have received from your 'Golden Medical Discovery' after having suffered for three years with salt-rheum," writes Miss Bertha Peters, of Lulu, Monroe Co., Mich. "The humor was on my hands, and I had been treated by our home physician who did not help me. After I began the use of Dr. Pierce's Golden Medical Discovery I took seven bottles, and can now say with pleasure that I am cured. Nobody knows the intense pain I have suffered. I could not sleep at night, the stinging, burning, and itching sensation would be so bad, sometimes I could hardly bear it. I thank you for your kind advice."

Dr. Pierce's Pleasant Pellets assist the action of the "Discovery" when there is constipation.
